

# CodeDark

## HEALTH

## Offline Platform for Continuous Care

HIPAA-compliant, hospital operations platform designed to maintain critical workflows during HIS/EHR outages caused by cyberattacks, maintenance, or network failures.

### The Problem

When Systems go down, hospitals lose access to:

- Patient records
- Med orders & schedules
- Communication tools
- Documentation workflows
- Billing for patient services

Mobile Device Included

### The Solution

CodeDark Health keeps care moving:

- Runs without Systems or network access
- Supports inpatient, ER, Pharmacy, Lab & Asset Management
- Hands-free voice operation
- Billing reports

#### Offline Platform

Fully functional without Wi-Fi or hospital network

#### Role-based Access Control

Permissions tailored for Nurses, Physicians and Admins

#### Department Coverage

Inpatient, ER, Pharmacy, Lab, Asset Management

**CodeDark**  
HEALTH

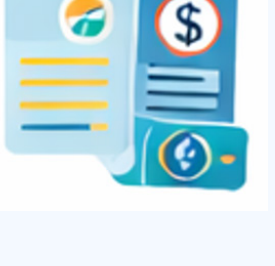

# Coverage Across Your Entire Hospital
